Conversion to Enterprise Accounting System (EASy) Complete

To Account Services file format customers:

The Federal Reserve Banks' Account Services successfully completed conversion to the Enterprise Accounting System (EASy) distributed application on April 12, 2014. The EASy application replaced the mainframe-based Integrated Accounting System (IAS).

As we have communicated, this transition impacts the Account Management Information (AMI) application, Accounting Information Services (AIS) data files, and the daily Statement of Account. Details regarding the changes are available on the [Account Services EASy Transition Resource Center](#). If you have any questions, please contact your [Account Services Customer Support Contact](#).

We appreciate your support throughout this transition and look forward to continuing to provide you with efficient, high-quality payments services.

The Federal Reserve Financial Services logo is registered service mark of the Federal Reserve Banks. A complete list of marks owned by the Federal Reserve Banks is available at FRBservices.org.
