

FedLine Advantage®

The FedLine Advantage access solution offers flexible and convenient electronic access to critical payment and information services, including:

- FedACH® Services
- Fedwire® Funds Service
- Fedwire Securities Service
- National Settlement Service
- Valuable information services to support and streamline accounting, reconciliation and compliance processes

Key Features

Enhanced Service Availability

The base FedLine Advantage package offers access to:

- Core transaction and information services most commonly used by operations officers and staff
- Tools necessary to send and receive transactions, view summary-level information, receive alerts and notifications of exceptions, process adjustments and receive billing statements

The FedLine Advantage Plus package includes:

- Valuable tools and information services in addition to the base options described above
- Additional services that could be leveraged by key management staff within your institution, including risk officers, corporate treasurers and compliance officers

For the most current listing of available services, visit FRBservices.org.

Flexible Access Options

The FedLine Advantage access solution packages are designed to meet a wide range of business needs and allow you to control user access and delivery of services based on several key factors:

- Number of users in your organization
- Transaction volume
- Desired access speeds
- Networking preferences
- Structure of your operations

Greater Control

Flexible networking options present choices in both internal and external connectivity, while convenient Subscriber packages let you control the level of access for any individual in your institution and support delivery of select information directly to end-users. A direct connection to Federal Reserve Financial Services via a FedLine Advantage access solution gives you greater control over your payment operations.

Trusted Security and Reliability

FedLine Advantage incorporates highly resilient, contemporary security features that are designed to create reliable protection for your business data, while enabling convenient access. Industry-standard, end-to-end encryption is automatically enabled to ensure the confidentiality and integrity of all communications with the Federal Reserve Banks. Authentication options that include both digital certificates and passwords allow your organization the flexibility to define customized access for authorized individuals.

Robust Customer Support

Our dedicated team of technical analysts will work with your institution to explain technical requirements for the setup process and work with your technical staff throughout the implementation process. Once implementation is complete, you can still count on our technical support team to provide the assistance you expect from the Federal Reserve Banks.

Training

To support your organization in its use of the FedLine Advantage access solution, the Federal Reserve Banks offer online training opportunities that make it easier to learn how to access and use Federal Reserve Financial Services. The Learning Center on the FedLine® Home page provides online training to help you learn product orientations and step-by-step instructions for accessing services.

Getting Started

To get started with the FedLine Advantage access solution, visit FRBservices.org and click on Service and Access Setup.

The Federal Reserve Financial Services Advantage

The Federal Reserve led the financial services industry in providing electronic access to services more than 25 years ago and now has network reach to connect you with over 15,000 U.S. financial institutions. We continue to develop innovative and reliable options to meet your changing needs.

Where Can I Get More Information?

The Federal Reserve is committed to providing you with exceptional customer service. Our team of technical support experts is available to assist you in using all of our products and services. For a complete listing of contacts for your institution, please see My FedDirectory® by visiting FRBservices.org and selecting "Contact Us".
